

Artificial Intelligence

Debevoise
& Plimpton

The Debevoise Artificial Intelligence Practice

Recognized
by clients and
the legal press
as one of the
foremost AI
practices in
the world

Over 60
current AI
clients, covering
the following
sectors:

- Insurance
- Financial Services and Banking
- Health and Pharma
- Private Equity
- Media and Tech
- Consumer Goods

Integrated and
Broad-Ranging
AI Advice:

- AI Governance (including cybersecurity, privacy, and bias)
- AI Regulator Compliance and Enforcement
- AI-Related IP, Licensing, Contracting, and M&A
- AI Litigation

AI Services

AI Governance

- Designing and implementing AI Governance and Compliance programs
- Setting up AI Committees and establishing protocols for reviewing AI use cases.
- Conducting AI risk and regulatory gap assessments, including for cyber, privacy, and bias
- Designing AI oversight controls and providing briefings for boards and senior management
- Creating AI vendor risk management programs
- Developing AI training programs

AI Regulatory Compliance

- Responding to SEC and other AI-related regulatory exam requests
- Tracking AI regulations and writing comment letters on proposed AI regulations
- Engaging directly with regulators on proposed AI use cases on behalf of clients
- Conducting AI Tabletop exercises to test AI-related crisis management plans

AI Services (cont'd)

AI IP, Licensing and Contracting

- Negotiating license agreements with Generative AI providers
- Advising clients on how to protect their IP rights
- Conducting AI-related diligence in M&A deals

AI Litigation and Enforcement

- State and Federal Government enforcement actions
- Consumer class actions
- Shareholder derivative actions
- Employment litigation (AI-related hiring, promotions, evaluations, terminations and monitoring)

Technology Expertise

- Market leading cybersecurity practice (the firm other law firms turn to when breached)
- Sophisticated patent, trademark, and copyright expertise

AI Thought Leadership

Our **Data Blog** has 2,000 subscribers and contains over 100 articles that we've written on various AI-related topics

Our award winning **Data Portal** closely tracks the latest AI regulatory developments to allow companies to future-proof their AI programs

Our regular **AI Webcasts** draw hundreds of attendees and often feature guest AI regulators and industry leaders

Our **AI CLEs** for clients provide the latest on AI technical and regulatory developments

Our AI Group is led by **Avi Gesser** who has been working on AI-legal issues for over 10 years, and was named an "**AI Visionary**" by Relativity in its first annual list featuring leaders in AI

Debevoise Cross-Disciplinary AI Team

Fully Integrated
AI Risk Management
and Issue Spotting Team:
